

Chiropractic Physicians' Board of Nevada NEWSLETTER

CHIROPRACTIC PHYSICIANS' BOARD OF NEVADA NAMED "BOARD OF THE YEAR"

At the Annual Meeting of the Federation of Chiropractic Licensing Boards on May 4, 2013, the CPBN was honored with the **2013 Dr. Earl L. Wiley Outstanding Chiropractic Licensing Board Award**. CPBN Executive Director Cindy Wade was awarded the FCLB "**Special Presidential Recognition**."

Statutory Changes Enacted During the 2013 Legislative Session

NRS 634.018(4): The following was removed as a definition of unprofessional conduct: "...preparing, causing to be prepared, using or participating in the use of any form of public communication that contains professionally self-laudatory statements calculated to attract lay patients." The revised definition: "**Advertising, by any form of public communication, a chiropractic practice: (a) Using grossly improbable statements; or (b) In any manner that will tend to deceive, defraud or mislead the public**" has been deemed appropriate by the Board for public protection.

NRS 634.080: A new provision was added that requires that an applicant's official transcript be transmitted directly to the Board from the college of chiropractic from which the applicant received his or her DC degree to simplify the license credentialing process.

NRS 634.100: A new provision allows, but does not require, the Board to provide **online testing** to DCs and CAs for which a score of 90 or higher on all subjects will be required to pass.

NRS 634.115(4): The criteria for issuance of a temporary license now specify that a temporary license: (a) is valid for **no more** than 10 days; and (b) is valid **only for the place of practice designated on the license**.

NRS 634.130(6): A new provision was added that allows the Board to waive the continuing education requirement for DCs or CAs if they submit proof that they were in active military service which prevented them from completing the CE requirements during the 24 months immediately preceding renewal date of the license or certificate.

NRS 634.130(8): CAs who renew their certificates for the first time are not required to attend 12 hours of continuing education.

NRS 634.130(9): A new provision was added that allows the Board to waive the renewal fee of DCs or CAs if they submit proof to the Board that they were in

active military service at the time the renewal fee was due.

NRS 634.130(11): To avoid the negative connotation of disciplinary action by use of the term "automatically *suspended*," the term was changed to "automatically **expired**" in reference to non-renewal of DC licenses and CA certificates.

NRS 634.135(1): The fee that is paid by colleges, chiropractic associations and other continuing education providers for the Board's review for approval of a continuing education course was increased from \$25 to \$50.

All of the above changes are effective October 1, 2013.

Taxicab Driver Examinations

The Nevada Chiropractic Association was instrumental in achieving passage of SB335. Effective January 1, 2014, Nevada chiropractors may examine prospective taxicab drivers and issue medical examiner's certificates.

CA Renewals

All Chiropractor's Assistant renewals are due by December 31, 2013. The fee for the two-year renewal is \$120. Certification of 12 hours of Board approved continuing education attended during the period May 5, 2011 through December 31, 2013 must be submitted to the Board's office by December 31, 2013. All 12 of the 12 hours required for CA certificate renewal may be attended online. A list of approved courses is available at: <http://chirobd.nv.gov/query-CESeminarsCAonly.asp>.

Chiropractors' Assistants renewing for the first time only are exempt from the continuing education requirement. For example, CAs who passed the test and were certified during 2013 do not have to attain continuing education hours to renew on or before December 31, 2013; they still have to renew, however.

The CPBN has authority only over its licensees and certificate holders. The Board enforces Nevada Revised Statute and Nevada Administrative Code 634. Funding for all of its activities are derived solely from the monies collected from licensees and certificate holders. The CPBN has no authority to take action on employment issues, or issues that generally relate to the chiropractic profession. These matters should be addressed by the Nevada Labor Commission, the professional association or other such entities.

A MESSAGE FROM THE PRESIDENT

Re: Recommended Office Policy for Patient Billing

Please note that giving a quote, written or verbal, to a patient regarding how much their insurance will pay for your services can be construed as a contractual agreement and would then have to be honored regardless of what the actual insurance reimbursement is. To avoid these misunderstandings, hard feelings between you and your patient, and, most importantly, a formal complaint to the Board, we recommend that the explanation given from you or your staff to your patient regarding insurance coverage be extremely clear that there are uncertainties (if there are).

David G. Rovetti, DC, President
