The following Board Members were present at the roll call:

Dr. Lurie announced that agenda items would be taken out of order to accommodate those present.

Agenda Item 12 Introduction/presentation from Nevada Chiropractic Council – No action

Dr. Bobby Moore, NCC President, and Dr. Jason Jaeger, introduced themselves. Along with Drs. Deed Harrison and Stephanie Youngblood, they are the founding members of the NCC. The primary goals of the NCC are to protect the right of chiropractors to adjust in the state of Nevada and deter other health care providers from performing Grade V mobilization, to increase reimbursement rates for Nevada chiropractors and allow them access to treat workers comp patients, and to unify the chiropractors in the state. The NCC will provide educational seminars and will have a lobbying presence. Their emphasis is on drug-free subluxation based health care which they feel is philosophically different from the NCA. Their website is up and the 501C is almost ready for filing. They distributed a flyer with the NCC Mission Statement and membership registration form. The NCC welcomes all chiropractors and is hopeful that NCA members will be interested in dual memberships.

Dr. Overland stated that the NCA has not been approached by any representatives of the NCC and the NCA is not proactive with respect to including prescriptive rights or going outside the scope of practice. He commented that other states have found that combining into one association is a better way to go.

Agenda Item 11 Review/possible adoption of ICA Best Practice guidelines – For possible action

Dr. Lurie observed that the Board's current policy is to not endorse any of the recognized guidelines. Dr. Jason Jaeger stated the ICA developed the Best Practices Guidelines due to the limitation of six visits for low back under current federally accepted guidelines. There was general agreement that the Board should continue its policy against adopting any guidelines but it may consider acknowledging or recognizing certain guidelines. Dr. Lurie announced that more information needs to be gathered and this matter will be addressed again at the next meeting.

Agenda Item 5 Approval of Request for Extension of Payment Deadline from David Stella, DC – For possible action

(Note: The Board may go into closed session pursuant to NRS ch. 241 to consider the character, alleged misconduct, or professional competence of Dr. Stella.)

Dr. Stella and Compliance Monitor Dr. Jo Briggs were present. Dr. Stella did not request to go into closed session. Dr. Stella has completed all of the terms and conditions of his settlement agreement except that he was unable to pay off the remaining \$11,500 balance of the fine by the deadline date and requests an extension. He plans to have the balance paid off by the end of 2015 if his collections increase as anticipated. Dr. Rovetti moved to accept Dr. Stella's plan to pay off the balance by the end of 2015. Dr. Lurie seconded the motion. After discussion, Dr. Rovetti withdrew his motion and Dr. Lurie withdrew his second. Dr. Rovetti moved that Dr. Stella should continue to make \$500 monthly payments until the balance is paid off. Dr. Davis seconded and the motion passed unanimously. Mr. Ling will prepare an Order modifying the settlement agreement.

Agenda Item 4 Approval of Settlement Agreement in the Matter of Donald Miner, DC, License No. B202, Case No. 13-26N – For possible action

(Note: The Board may go into closed session pursuant to NRS ch. 241 to consider the character, alleged misconduct, or professional competence of Dr. Miner.)

Dr. Miner and his attorney, Edgar Carranza, were present. Dr. Miner declined to go into closed session. Louis Ling explained that the investigation into this basically malpractice complaint was impeded by Dr. Miner's inability to access the complainant's electronic patient records due to a change in software. He reviewed the terms and conditions of the proposed settlement agreement.

Ms. Mercer moved to approve the settlement agreement. Dr. Rovetti seconded the motion. The motion failed with Dr. Rovetti, Ms. DiFillippo and Ms. Mercer in favor, Drs. Colucci, Lurie and Davis opposed, and Dr. Nolle recused as the Investigating Board Member. Dr. Davis moved to table this matter until the patient's records can be obtained. Dr. Colucci seconded. After discussion, Dr. Davis withdrew his motion and Dr. Colucci withdrew her second. Dr. Rovetti made another motion to accept the settlement agreement as proposed. A. Appeal of Advertising Violation Notice – Dr. Brian Fife

Dr. Brian Fife presented his objections to the form letter he received alleging a violation for using the word "Specialists" in his business name, "Advanced Chiropractic Specialists." He pointed out that "Chiropractic Specialists" does not specify a field as indicated in the Board's policy. Dr. Lurie made a motion to dismiss the form letter regarding the advertising violation. Dr. Davis seconded the motion. After discussion, Dr. Lurie withdrew his motion and Dr. Davis withdrew his second. Dr. Lurie then moved to retract the Notice of Advertising Violation and allow Dr. Fife to continue to use "Advanced Chiropractic Specialists" as his business name. Dr. Davis seconded and the motion passed unanimously.

Agenda Item 6 Request from Joshua Purcell, DC, for modification of Settlement Agreement – For possible action

(Note: The Board may go into closed session pursuant to NRS ch. 241 to consider the character, alleged misconduct, or professional competence of Dr. Purcell.)

Dr. Purcell and attorney Matt Wagner, who was filling in for Dr. Purcell's attorney, Ryan Dennett, were present. Dr. Purcell did not request to go into closed session. Dr. Rovetti moved to accept the proposed modification of Dr. Purcell's settlement agreement to terminate his probation upon receipt of payment in full of the remaining balance of the Board's costs. Ms. Mercer seconded. Dr. Lurie inquired if there has been enough time for Dr. Purcell to make the necessary corrections and assure sustainability. Dr. Davis reported that the one year of probation has gone well and Dr. Purcell has been very cooperative. The motion passed with Drs. Lurie, Nolle and Rovetti, Ms. DiFillippo and Ms. Mercer in favor, Dr. Colucci opposed, and Dr. Davis recused as the Investigating Board Member.

A citation was subsequently served on Mr. Hawkins. Upon ratification by the Board, steps will be taken to collect on the citation. Dr. Lurie made a motion to support BDR 899. Dr. Davis seconded and the motion passed with all in favor.

Agenda Item 9 Request from Nevada Association of Naturopathic Physicians to combine Naturopathic Board with Chiropractic Physicians' Board of Nevada – For possible action

Alexandra Reimann, ND, her associates and lobbyist Garrett Gordon presented the particulars of their association's bill to establish their own self-regulated, self-funded board. A dangerous situation currently exists with unlicensed practice of naturopathy in Nevada, which is the only western state that doesn't license naturopathic practitioners. Louis Ling related the derogatory history of the Naturopathy Board that previously existed in Nevada.

The NANP requested the CPBN to support the bill to create a Naturopathy Board. If that does not materialize, they would like the CPBN to consider accepting them in a combined board. There was much discussion concerning the potential effect a combined board would have on the CPBN. Dr. Lurie recommended the NANP proceed with their bill at the Legislature. If unsuccessful, the CPBN may entertain the concept of a combined board.

Agenda Item 3 PUBLIC HEARING for the Temporary Adoption of a Regulation of the Chiropractic Physicians' Board of Nevada – For possible action

Dr. Lurie opened the hearing and asked for public comment. Dr. James Overland commented that the second paragraph needs more definition as there is no mention of extremities with regard to the resistive movement terminology. He feels there is a need for more research and to find out what other states are doing. Dr. Davis asked if there is anything in the FCLB Model Practice Act that might be helpful. Dr. Colucci said the Model Practice Act can be accessed on the FCLB's website. Dr. Lurie declared the public comment portion of the Public Hearing to be closed.

Dr. Rovetti commented that this regulation will apply to anyone who performs a Grade V mobilization and claims they are not applying a precisely controlled force. Dr. Lurie said he reviewed the proposed regulation in depth with Dr. Overland and has concluded that the second paragraph does need additional work. Mr. Ling advised the regulation may be adopted with an amendment deleting the second paragraph. In the interim, the second paragraph can be revised for inclusion when the temporary regulation is adopted as a permanent regulation. Dr. Lurie moved to adopt the temporary regulation with the second paragraph deleted. Dr. Rovetti seconded and the motion passed unanimously.

Agenda Item 25 NCA Report – No action

NCA President Dr. Overland requested that the revised language for Paragraph 2 of the proposed regulation be submitted in advance to the NCA for its input. He reported that there were over 100 attendees at the NCA's 2014 annual seminar. Dr. Jack Nolle was named Chiropractor of the Year. The NCA and the University of Bridgeport will co-sponsor a lecture/online seminar, Advanced Clinical Training in Orthopedics and Neuromuscular Medicine, starting the end of May or early June. The NCA will also sponsor an ICD10 seminar in Reno in early May. The NCA's annual seminar will be in Reno in September or October this year. Dr. Overland is concerned that there is no identifiable radiographic reference source other than Yoakum. He said Tennessee provides a chiropractic radiologic study guide for study by CAs and he has given a copy to Dr. Nolle. He advised the Board to establish some direction for licensees who encounter problems retrieving electronic records when their software fails. Louis Ling advised that the Board should be notified when this happens, the records should be supplemented, initialed and dated, and electronic records should be backed up and also stored off-site. Dr. Lurie added that the patients whose records are lost must be notified. Dr. Overland requested a letter to this effect which will be prepared by Mr. Ling.
